Use the keygen to generate a new license. Name it as "license file". Now go to the "Program Files\Autodesk\Autocad 2017\Licenses". You should see a file called "license file" located there. Place the license file somewhere safe. Copy the license file back to the "Program Files\Autodesk\Autocad 2017\Licenses". Start the Autodesk Autocad and follow the license screen. That's it! If your generated license file is not saved as "license file", then it won't work. Aleksei Makarov (wrestler) Aleksei Makarov (; born August 23, 1971) is a former wrestler from Russia.
